

We're seeking Experts by Experience to join our Living Experience Advisory Panel

The Living Experience Advisory Panel (LEAP) has been established by the Restorative Justice Council (RJC) to create a space for those with experience of either accessing or participating in a restorative process to use their experiences to help inform the RJC's policy positions, practitioner guidance and awareness raising activities related to restorative justice delivery.

We are seeking up to 6 experts by experience to join us in this exciting new opportunity. To be considered, you should have experience of either accessing or participating in a restorative process. This can be at any stage of a restorative process and their experience of the process can be positive or negative.

We would like to hear from you if you are interested in using your experience to:

- Provide advice and guidance from a participant's perspective relating to the RJC's internal and external policy positions on the use of restorative justice within the criminal justice system
- Ensure that the voices of those with living experience are reflected within the RJC's policy responses
- Represent the voices of those with living experience, where appropriate, in national discussions, forums and conferences
- Provide advice and guidance from a participant's perspective relating to the RJC's Practice Standards Guidance and Practice Registration Frameworks
- Provide advice and guidance from a participant's perspective relating to the development of restorative justice awareness raising resources
